The Global Organic Textile Standard (GOTS) is recognized as the world's leading standard for the processing of textiles made from organically produced natural fibres. At a high level, it defines environmental requirements along the entire textile production chain and at the same time demands compliance with social criteria.

On-site inspections and the certification of upstream companies, manufacturers and retailers by independent, specially accredited testing institutes form the basis of the GOTS control system. This guarantees comprehensive security for GOTS-certified textiles.

With the successful completion of the certification, we have a license that entitles us to participate in the GOTS program. The certification also applies to our print shop. We print the GOTS bags according to the GOTS standard. This entitles to use the standard and also the GOTS logo on printed bags.
